

# Fully Integrated CTMS & eTMF

Your Single Source of Truth for Clinical Trial Management

**medrio**

PHARMASEAL

Clinical trial operations management is no easy feat. From competing demands, regulatory pressures, and budget constraints—you can't afford to rely on unreliable data.

When data is coming in from numerous disconnected sources, it can cause trial delays or result in redundancies, inaccuracies, and manual reconciliation.

Decisions on how and where your team collects, analyzes, and stores data ripples over into all aspects of trial management including patient safety, regulatory compliance, trial outcomes, timelines, and budget. It's critical that you equip your teams with a tool capable of providing timely and accurate insights across global teams and facilities. You need purpose-built eClinical integrations that inspire confidence through visibility, accuracy, and control. You need Medrio and PHARMASEAL's single source of truth for trial management.

# Eliminate Your Headaches With Our Integrated Solution

## Technology That Natively Speaks

Data ingested by Medrio is sent to PHARMASEAL's Engility® Trial Management platform, where it auto-populates information on patient, study, and site activities, including site payments.

## Manage Your Master Files

With a centrally located eTMF, you can feel confident in your regulatory readiness and not worry about having to scramble to find important documents when auditors come knocking.

## Purpose-Built Connectors

We've bridged the gaps between our solutions to streamline your research by fostering hyper collaboration, integrating complex supply chains, and enhancing study oversight.

## Safe and Secure

Medrio and Engility® help you maintain a strong security posture through flexible and configurable data access controls at the customer, study, country and site levels.

## How Will You Benefit?

Achieve full data population and visualization in a matter of hours, instead of days with non-native systems.

Stop relying on IT or third party experts. Our feature-rich, programmerless, and intuitive platforms put you in full control of your study management strategy.

Eliminate data discrepancies, duplicate entry, and manual validation with our single source of truth.

Maintain close oversight of study performance with Engility®'s pre-built and custom business intelligence dashboards and reports.

## ABOUT MEDRIO

At Medrio, we know that it takes a global village to achieve a healthier world. Our leading eClinical Data solutions have helped sponsors, CROs, and sites from all trial phases and therapeutic areas secure over 770 regulatory approvals. Whether conducting traditional, hybrid, or fully-virtual trials—our adaptive platform of EDC, DDC, eConsent, RTSM, and ePRO/eCOA help streamline your studies, without compromising data quality. And our experts are on-call 24/7 to help you solve your most pressing needs. Discover the Medrio difference and learn more at [medrio.com](https://www.medrio.com).

## ABOUT PHARMASEAL

PHARMASEAL was founded in 2016 by a team of industry leaders who share a vision to create smarter technologies and innovative products for the improvement of human health. The company's SaaS platform Engility® simplifies the management and control of clinical trials for biopharmaceutical, CRO and medical device companies. Engility® utilises advanced engineering offering enterprise management with rapid deployment, an intuitive user interface and interoperability with other eClinical applications to optimise trial governance and oversight.
