

Medrio CTMS

Drive trial efficiency with improved study startup, monitoring, and oversight with a system built for scaling teams.

Streamline trial operations and maintain total oversight with an intuitive CTMS built specifically for growing teams. Medrio CTMS gives you a **single source of truth for managing key operations**. Oversee study startup, site readiness, monitoring visits, and enrollment progress **without enterprise cost, added complexity, or burdensome programming**.

Conduct your studies with confidence using an audit-ready platform. **Seamlessly connected with Medrio EDC**, our automated subject data syncs deliver connectivity and high-quality results without added risk.

Balanced

Enterprise-grade rigor without the overhead or costs.

Autonomous

Configure studies on your own without relying on programmers or vendor support.

Collaborative

Provide feedback on Medrio CTMS through our Early Adopter Program.

Rapid setup for new studies

Launch and scale new trials without starting from scratch using our **templated study setup and reusable libraries**. Eliminating wasted time rebuilding checklists or sitting in a vendor queue means you can **move quickly from one study to the next**. Our intuitive solution **keeps you in control while compounding build efficiency**, so every new trial goes live faster than the last.

Inspection-ready oversight

Maintain inspection readiness with **automated 21 CFR Part 11 audit trails** on every action. Monitoring visit reports carry forward open findings automatically, so no follow-up information is lost between visits. Thoughtful compliance adherence keeps your study audit-ready from day one.

Seamless platform connectivity

Refine operations and reduce reconciliation by **pairing Medrio CTMS with Medrio EDC** to establish a single source of truth. Subject records entered in EDC stay current in CTMS automatically, **making participant progress tracking easy**. Connected workflows **reduce administrative burden, protect data accuracy, and give you total trial visibility**.

Join the Early Adopter Program

Medrio's exclusive program gives existing customers early access to Medrio CTMS, direct insights into the product roadmap, and preferred pricing discounts.
